How to Make the Mini-Book

These mini-books are designed for double-sided copying. If your machine does not have a double-sided function, make copies of the title page first. Then place these copies into the machine's paper tray. Next, make a copy of the second page so that page 2 copies directly behind the title page. For variety, print or copy the mini-book on light-colored paper. Show children how to assemble their mini-books by following these steps:

1. Cut the page(s) in half along the solid line.
2. **For an 8-page book**, place pages 4/5 on top of pages 2/7, as shown.
3. Fold the pages in half along the dotted line.
4. Check to be sure that the pages are in the correct numerical order. Then staple the pages together along the mini-book's spine.
5. Encourage children to personalize their books by coloring them with crayons, markers, or colored pencils.

8-page book

Create your own mini-books using poems or other songs that children enjoy. Happy singing and reading!
